

# staff report

---

TO: Honorable Mayor and Members of the City Council

ATTENTION: Jeffrey L. Stewart, City Manager

FROM: P.J. Mellana, Director of Parks and Recreation

SUBJECT: Consideration and possible action to approve Prioritized Park Project List related to the Los Angeles Countywide Comprehensive Park & Recreation Needs Assessment.

DATE: January 25, 2016

## **EXECUTIVE SUMMARY**

As a participant in the Los Angeles Countywide Park Needs Assessment process, the City of Bellflower's next step is to approve and submit a Prioritized Project List. On Tuesday, December 8, 2015, staff hosted the required community engagement workshop to develop a prioritized list of potential future park projects in Bellflower. The results of that workshop and proposed list are attached. Participation in this assessment and the Prioritized Project List are for informative purposes only and will assist staff with future planning.

## **RECOMMENDATION TO CITY COUNCIL**

- 1) Approve the Prioritized Project List related to the Los Angeles Countywide Comprehensive Park & Recreation Needs Assessment; or
- 2) Alternatively, discuss and take other action related to this item.

## **FISCAL IMPACT**

None – will assist with data when applying for future funding opportunities.

## **DISCUSSION**

Bellflower is one (1) of one-hundred eighty-nine (189) study areas in the Los Angeles Countywide Park Needs Assessment. The assessment covers all of Los Angeles County and includes 1) an inventory of all existing parks in the County and an evaluation of their conditions; 2) an analysis of park needs within each Study Area in the County; and 3) a prioritized list of park projects, and associated cost estimates, for each Study Area in the County.

**Staff Report – L.A. County Park Needs Assessment – Priority Project List**  
**January 25, 2016**  
**Page 2 of 2**

Los Angeles County will submit the final study and report to the County Board of Supervisors in May 2016. The results of the Park Needs Assessment may be used by the County Board of Supervisors to 1) inform potential countywide park funding decisions; and 2) inform future countywide park planning decisions. The City of Bellflower may use the results for park planning and funding decisions as well. Participation in this assessment is in no way a promise to complete any of these projects.

On Tuesday, December 8, 2015, the City’s Parks and Recreation Department hosted over fifty (50) community members who participated in a community engagement workshop as the next step in the Countywide Park Needs Assessment.

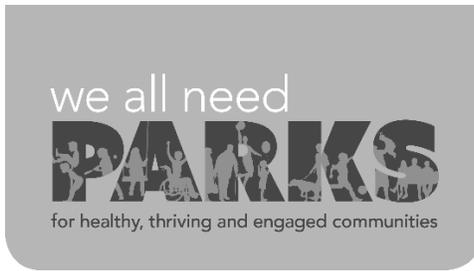

The goals of the workshop were as follows:

- 1) Provide the group with a review of the comprehensive inventory of park and recreation facilities and needs analysis for the City;
- 2) Allow the group to review the initial proposed project list that came out of that analysis;
- 3) Provide the group with an opportunity to add projects to that list; and
- 4) Provide the group with an opportunity to vote on and prioritize the list.

The workshop started with thirty-two (32) proposed projects; the community group added six (6) bringing the total projects voted on at the workshop to thirty-eight (38). Each community member in attendance was given ten (10) stickers to vote and had the option to spread them out over several projects or place them all on one project. The County originally requested ten (10) prioritized projects; however several of the projects proposed and voted on carried more weight due to the scope being a new specialized facility or park requiring land acquisition, therefore our final list of projects submitted to the County is four (4). Attached is the Prioritized Project List reporting form related to the Los Angeles Countywide Comprehensive Park & Recreation Needs Assessment that staff is recommending to Council for approval. Also attached are the voting forms that will also be presented to the County.

**ATTACHMENTS**

Prioritized Project List Reporting Form .....3  
Official Voting Forms .....9

**Study Area Name:**

City of Bellflower

## **Prioritized Project Reporting Form**

Please provide descriptions of the park projects prioritized during your Study Area's community engagement workshop. The details you provide will contribute to cost estimates that will be included with your projects in the final report of the LA Countywide Park Needs Assessment. Please be as specific as possible by providing all details that may have an impact on cost estimates (including quantities and acres where appropriate). Along with this form, please attach copies or scans of all voting forms presented at your engagement workshop.

**Please return this form to [robinson@parks.lacounty.gov](mailto:robinson@parks.lacounty.gov) no later than February 29, 2016**

1. Project Name: Sports Complex
